

Gustavo Henrique Ribeiro Dias

Software Developer | ReactJS, React Native, Supabase, TypeScript, Node.js

JavaScript developer with experience building web and mobile applications using **ReactJS, React Native, Node.js, and Firebase**. Currently pursuing a postgraduate degree in Software Architecture at FIAP, focused on refining best practices in software architecture, delivering clean code, and creating high-performance solutions

Work Experience

Systems Analyst

Sorocaps, On-site – *(March 14, 2025 – March 2, 2026)*

I worked on the ongoing development of the system by implementing strategic features that increased user engagement and platform efficiency. I was responsible for identifying and resolving complex bugs, as well as leading performance optimizations and interface refinements (UI/UX) to ensure a more fluid and responsive user experience. Additionally, I ensured the application's integrity through the constant modernization of the technology stack and strict compliance with security requirements and industry best practices

Systems Analyst

Sorocaps, On-site – *(July 23, 2022 – March 5, 2024)*

I contributed to the system's ongoing development by implementing new features that boosted user engagement. I performed bug fixes, performance optimizations, and visual enhancements, ensuring a more fluid and efficient user experience. I kept the system up to date with the latest technologies and security requirements

Freelancer

Ossel Assistance, Remote

I developed a comprehensive task management system with features such as task creation and status tracking, multimedia content addition, participant management, and change notifications. Each task includes a detailed timeline for tracking modifications.

Full-Stack Developer

Softwrap, Remote – *(May 1, 2021 – December 24, 2021)*

I developed the complete user interface for an app for buying and selling cryptocurrency shares, resulting in an intuitive user experience aligned with the client's expectations. I implemented integrations with Firebase (Firestore and Authentication), optimizing the app's security and efficiency.

Skills

- **Analytical Thinking:** Ability to analyze data and information to make informed decisions.

- **Design Tools:** Proficiency in Figma for creating interactive prototypes and designing user interfaces.
 - **Technical Problem Solving:** Ability to diagnose and resolve code issues by referencing technical documentation.
 - **Teamwork:** Effective collaboration with teammates to achieve common goals, contributing ideas and solutions.
 - **Effective Communication:** Ability to communicate ideas clearly and concisely, both verbally and in writing, tailoring the message to the audience.
-

Technical Skills

- Experience in web application development using HTML, CSS, CSS in JS, Tailwind, JavaScript, TypeScript, React JS, React Native, Context API, Hooks, and Redux;
 - Experience with component libraries such as GlueStack, Ant Design, and ShadCN/UI
 - I have developed projects applying DDD, TDD, and SOLID concepts, and have implemented Clean Architecture in a monolithic project.
 - I have configured and used a static code analysis tool (SonarQube).
 - Knowledge of data manipulation via APIs and Local Storage;
 - I have used **Spring Boot** to develop a **CRUD API** with authentication for educational purposes
 - Experience with databases such as **SQLite, PostgreSQL, MS SQL, MySQL, MongoDB, and Redis** in my projects
 - I have used **Docker** to build and push images to a cloud repository (Docker Hub)
 - I have used **Jest and Vitest** to create unit tests and end-to-end (E2E) tests
 - I have used **Supabase, webhooks, Edge Functions, and the Supabase CLI.**
 - I've used **Vue 3** in a small project for learning purposes
 - Experience with Node.js frameworks such as Express, Nest.js, and a brief stint with Fastify.
-

Languages

- English
 - I can read documents and communicate
-

Projects

- Pin Pets 🌟
 - react-native-view-resizer
 - react-native-expo-modal-select
 - poto
 - Ritz Beauty & Aesthetics
 - Cars Mobile
 - Financial Control
 - Gofinances 2.0
-

Education

- **Bachelor's Degree in Systems Analysis and Development Technology**

- Cruzeiro do Sul University
- **Postgraduate Certificate in Software Architecture** (In progress)
 - FIAP

Specialization Courses:

- **AWS**
 - **AWS Certified Cloud Practitioner**
- **Rocketseat**
 - **GoStack**
 - **Fundamentals of React Native**
 - **Interfaces, Navigation, and Local Storage**
 - **Component Library and Backend Integration**
 - **Push Notifications**
 - **Animations and Microinteractions**
 - **Mastering Tailwind**
 - **Redux + State**
 - **Building SaaS with Next.js and RBAC**
- **Alura**
 - **Continuous Delivery: Reliability and Quality in Software Deployment**
 - **Continuous Integration: Higher Quality and Lower Risk in Development**
 - **Docker: Building Images for Production**
 - **DevOps: Building and Managing Containers with Docker**
 - **Microservices: Design Patterns**
 - **Design Patterns with TypeScript: Improving an API with Clean Architecture**
- **International English Test**
 - **C1 Advanced English Level**
